### **Eriez® Suspended Electromagnets Remove Tramp Iron**

Erie, Pa.--Eriez®, world authority in advanced technology for magnetic, vibratory and inspection applications, offers powerful [Suspended Electromagnets \(SEs\)](#) to remove damaging tramp iron from materials conveyed in heavy burden depths on flat conveyors or chutes, with an exclusive 5 year coil warranty.

With Eriez Series 7000 Suspended Electromagnets, customers can safely and automatically remove tramp iron from heavy product flows such as wood, coal, or rock being conveyed on belts, vibratory feeders or chutes. UL-Listed construction is available on units for use in hazardous and dusty locations. These air-cooled, dry-type electromagnets, also approved by CSA, require no coolant fluids and reduce power consumption by up to 50 percent.

Eriez offers both manual and self cleaning Suspended Electromagnets.

Select sizes and models of this equipment are available for **NEXT DAY** shipment from the [EriezXpress](#) Program and six additional manual clean SE Magnets are available for shipment in ten business days after receipt of the order.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit [www.eriez.com](http://www.eriez.com) or send e-mail to [eriez@eriez.com](mailto:eriez@eriez.com). Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
