

Advantage **ERIEZ**TM

Magnetic, Vibratory and Metal Detection Solutions for Industry

NEWS RELEASE

For Immediate Release

Eriez' Suspended Electromagnets are Backed by a 60-Month Coil Warranty

Eriez Magnetics' SE7000 series Suspended Electromagnets efficiently remove damaging tramp metal contamination from product flows, protecting process equipment and improving product purity. And now, all 7000 Series SE's are covered by an exclusive 60-month coil warranty.

SE7000 series Suspended Electromagnets safely and automatically remove tramp iron from heavy product flows like wood, coal, or rock being conveyed on belts, vibratory feeders or chutes.

When designed with a continuously rotating belt, these magnets are self-cleaning.

Select sizes of this equipment are available for **NEXT DAY** shipment from the **EriezXpress** program, a custom service

developed by the company to quickly ship a wide variety of Eriez' most popular products. **EriezXpress** simplifies product ordering and guarantees shipment the next business day.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and metal detection applications. The company's magnetic lift and separation, metal detection, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate, and textile industries. Eriez manufactures and markets these products through nine international facilities located on five continents. To receive ERIEZ' Suspended Electromagnetic brochure SB323, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com
